

March 25 - March 31 (Published April 3)

## PERSPECTIVES by Glenn Gottlieb

**37 Crypto Private Financings Raised ~\$347M**  
**Rolling 3-Month-Average: \$243M**  
**Rolling 52-Week Average: \$184M**

Blockchain technologies will transform, streamline, and significantly drive down costs for many enterprise operations and processes. Supporting the growth of the enterprise blockchain segment is a focus area for Architect Partners, and thus we were proud to represent Champ Titles in its \$18 million Series C financing. Point72 Ventures led the round and was joined by existing investors W.R. Berkley Corporation, Eos Venture Partners, Guidewire Software, and Rev1 Ventures, among others. To date, Champ Titles has raised more than \$45 million.

Champ Titles provides a digital title and registration suite to streamline the vehicle titling process. This platform enables the creation of legal, digital titles for easy transfer and verification, serving insurance carriers, lenders, state governments, auto dealers and owners. Stakeholders, including state authorities, lenders, and vehicle owners, benefit from a unified and transparent system, where all information is readily accessible, and disputes are markedly reduced. The governance of the digital platform is established through clear guidelines, ensuring all parties adhere to the updated processes and regulations. Read more about Champ's financing [here](#).

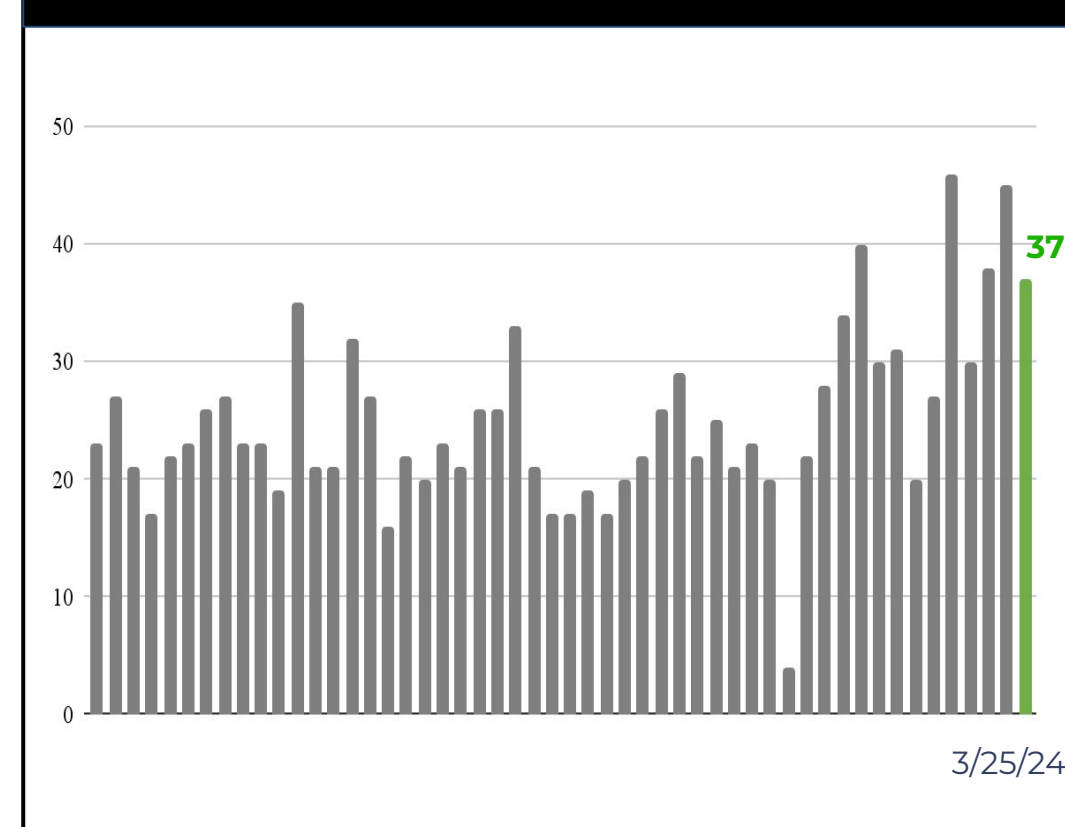

### Newest Architect Partners Research

Recognizing that utilizing blockchain technologies to drive significant increases in enterprise efficiency is a growth segment of interest, Architect Partners just released our newest report, [Blockchain for the Enterprise](#).
